Why Linux? Posted by [timothy](#) on Wednesday October 01, @10:11AM

Why Subversion? from the like-alcohol-but-different-dept.

Sections [jankies](#) writes "MobileTractor noted that an interesting study on 3G cellular networks has been released out of Amsterdam. The findings were that exposure to 3G waves can cause headaches and nausea (conventional cellular service doesn't have these effects). It also found that these same subjects had better memory and reaction times (conventional cellular networks have the same effect)!"
